I had reviewed the latest response as edited by Jacquie Clark (R5) late yesterday afternoon. That response appears to present an accurate account of the progression of all the actions (EPA and WVDEP) and screening levels developed for PFOA at the DuPont Washington Works facility. I will forward that response to you in another email. Please let me know if you have any further questions.

Roger Reinhart

John,

See comment below from R3's Rick Rogers. I was away from my desk, so just now seeing this. Did you send response already? I'm about to leave work. I'll check back later, and I am working tomorrow if you need to reach me. Thanks. -- Terri

Hi, all:

I reached out to Jacquie Clark (R5), who looped in Andy Duchovnay (R3), for insight on the SDWA orders. Jacquie anticipates providing edits by COB today.

Importance: High

Hi everyone--as Mark and James are already aware, a reporter from a news outlet in North Carolina contacted us yesterday with a couple questions about the PFOA screening and action levels in the settlement with the DuPont facility in West Virginia. This inquiry is surely related to the GenX matter.

Here's the reporter's inquiry:

The EPA enforcement page on the settlement activity (<https://www.epa.gov/enforcement/ei-dupont-de-nemours-and-company-pfoa-settlements>) lists the initial temporary screening level for PFOA from the 2002 settlement as 150 ppb. But looking at the text of the actual consent order, it appears that initial temporary screening level was 14 ug/l, or 14 ppb. Is this an error on the enforcement page summary, or am I missing something?

## Ex. 5 Deliberative Process (DP)

I'm teleworking today and on my cell Ex. 6 Personal Privacy (PP) if anyone wants to connect on this--thanks,  
John
